[Key Trends In The Dental Services Market](#)

The dental services industry is experiencing a change in its delivery model through dental service organizations or dental support organizations (DSOs) giving rise to more corporate or group practices. DSOs are independent business support centers that contract with dental services providers and provide critical business management and support to dental practices, including non-clinical operations. The DSOs are facilitating more in-house treatments such as orthodontics, endodontic and oral maxillofacial surgery instead of being referred to a separate specialist. Group practices provide improved funding for infrastructure, equipment and expenses

associated with hiring specialists. In 2020, the American Dental Association Health Policy Institute indicated that 7.4% of all practicing US dentists are affiliated with DSOs.

### Overview Of The Dental Services Market

The dental services market consists of sales of dental services and related goods by entities (organizations, sole traders and partnerships) that provide general dentistry, oral surgeries and orthodontics and prosthodontic services. This industry comprises establishments of licensed health practitioners having the degree of D.M.D. – Doctor of Dental Medicine, D.D.S. – Doctor of Dental Surgery, or D.D.Sc. – Doctor of Dental Science.
