PLEASANT HILL, IOWA, UNITED STATES,
November 14, 2022 /

EINPresswire.com/ -- Yellowblue LED, the commercial LED lighting company of Eco Technologies International at <https://yellowblueled.com>, announced today that it is seeing expansive growth in the \$50 billion LED light industry and the \$17 billion solar industry. With the massive, nationwide need for flexible work conditions, higher pay and a way to conserve energy, the company has created unique opportunities for anyone who wants to improve the environment and help others.

Learn about all of the LED lighting opportunities at <https://yellowblueled.com>!

“

No experience in commercial LED lighting or solar is required, and driven individuals can control their schedules and income potential while having access to an exclusive network and training system.”

*Craig Schwienebart,
Yellowblue LED President*

“Our recent partnership with Midwest Solar Installers, <https://midwestsolarinstallers.com>, has improved our ability to help businesses significantly conserve energy and reduce their utility bills with both LED lights and solar power,” states Craig Schwienebart, Yellowblue LED President. “With the huge demand for these services, we have created unique career opportunities where no experience in commercial LED lighting or solar is required, and driven individuals can control their schedules and income potential while having access to an exclusive network and training system.”

As The Alliant Energy Small Business Energy Solutions

Award winner for helping businesses save over 100K kWh in 2021, Yellowblue LED continues their innovation with their new, Dynamic Sales Management and Leader opportunities. These positions are unique because they:

- Offer flexible careers without the need for experience in the commercial LED light industry;
- Deliver instant access to a fun, supportive and exciting network without hidden fees;
- Provide a proven, proprietary system with superior training immediately;
- Help all kinds of businesses, non-profits, organizations, and more conserve energy, improve environments, and save time and money; and
- Give opportunities to earn over \$100,000+ per year, operate a business, control scheduling, and much more!

Currently, Yellowblue LED serves the entire Midwest and more and plans to expand significantly in 2023.
