India Soft Skills Training Market Trends:

The expanding requirement to minimize the skill gap among professionals is primarily driving the India soft skills training market. Additionally, the emerging trend among companies to provide high-quality training modules to employees for faster achievement of goals and for

encouraging holistic development is further propelling the market growth.

Besides this, the growing investments by individuals towards upgrading their existing skills and learning new soft skills to attract advanced and lucrative professional opportunities are acting as significant growth-inducing factors. Moreover, the integration of Artificial Intelligence (AI) and Virtual Reality (VR) solutions with employee training modules is also positively influencing the market growth. Apart from this, the inflating popularity of [digital](#) learning or ed-tech platforms is expected to fuel the India soft skills training market over the forecasted period.
