

Essential Oils & Plant Extracts For Livestock Market to Reach US\$3.2 billion by 2027: IndustryARC

The rapid growth in concern towards animal health and well being in developed regions is anticipated to drive the market during the forecast period.

HYDERABAD, TELANGANA, INDIA,

November 14, 2022 /

EINPresswire.com/ -- IndustryARC, in its latest report, predicts that the [Essential Oils & Plant Extracts for Livestock](#)

[Market](#) size is estimated to reach \$3.2 billion by 2027. Furthermore, it is poised to grow at a CAGR of 6.78% over the forecast period of 2022-2027.

Essential oils are planted concentrates extracted from the tissue of plants and used majorly for applications such as additives, perfumes, processing aids and so on. However, they are also used as an animal feed ingredient to improve health of livestock animals as they aid in enhancing feed quality. Besides, the presence of phytochemicals and oligosaccharides in such products also help improve livestock productivity. Furthermore, essential oils and plant extracts are known for their immunomodulation abilities owing to their anti-inflammatory properties. Rapid rise in demand for plant extract infused cattle feed owing to the growing global dairy and meat consumption is driving the market for Essential Oils & Plant Extracts for Livestock Industry during the projected period of 2022-2027.
