

Cyanate Ester Resins Market is Estimated To Garner a Revenue of ~USD 700 Million | CAGR of ~11%

Global Cyanate Ester Resins Market to be Propelled Expansion of Automotive Industry by CAGR of ~11% During 2023 – 2033

NEW YORK CITY, NEW YORK, UNITED STATE, November 14, 2022 /EINPresswire.com/ -- Research Nester published a report titled "[Cyanate Ester Resins Market](#): Global Demand Analysis & Opportunity Outlook 2033" which delivers detailed overview of the global cyanate ester resins in terms of market segmentation by type, application, end-use industry and by region.

Further, for the in-depth analysis, the report encompasses the industry growth indicators, restraints, supply and demand risk, along with detailed discussion on current and future market trends that are associated with the growth of the market.

The global cyanate ester resins market is anticipated to grow with a CAGR of ~11% during the forecast period, i.e. 2023-2033. The market is segmented by end-use industry into airplanes & defense, automotive, electrical & electronics, and others. Out of these, the automotive segment is attributed to garner the highest market share by 2033, owing to the high sales of the vehicles across the globe. As per Organization of Motor Vehicle Manufacturers, the sales of vehicles rose from 78, 774,320 units in 2020 to 82, 684, 788 in 2021.

The global cyanate ester resins market is estimated to garner a notable revenue by 2033. The automotive sector is considered to be the main end-user industry of the cyanate ester resins market. However, other industries such as electronics and automotive industries also make use of cyanate ester resins on a large scale. The rising dependence on cyanate ester resins among these end-user industries is expected to bring considerable growth for the market. The

government bodies of various developing and developed economies are increasing spending on advanced defense machinery to prevent countries from attacking them. Cyanate ester resins are used expansively in defense machinery and equipment due to their exceptional properties. Thus, the growing investments by the government bodies of numerous countries across the defense sector is anticipated to push the growth of the cyanate ester resins market.

Geographically, the global cyanate ester resins market is segmented into five major regions including North America, Europe, Asia Pacific, Latin America and Middle East & Africa region. Out of these, the market in North America region is estimate to garner the largest market share by the end of 2033, on the back of increased sales and production of vehicles, high investments by government on research and development activities, growth in GDP level, and blooming of end-use industries.

The research is global in nature and covers detailed analysis on the market in North America (U.S., Canada), Europe (U.K., Germany, France, Italy, Spain, Hungary, Belgium, Netherlands & Luxembourg, NORDIC [Finland, Sweden, Norway, Denmark], Poland, Turkey, Russia, Rest of Europe), Latin America (Brazil, Mexico, Argentina, Rest of Latin America), Asia-Pacific (China, India, Japan, South Korea, Indonesia, Singapore, Malaysia, Australia, New Zealand, Rest of Asia-Pacific), Middle East and Africa (Israel, GCC [Saudi Arabia, UAE, Bahrain, Kuwait, Qatar, Oman], North Africa, South Africa, Rest of Middle East and Africa). In addition, analysis comprising market size, Y-O-Y growth & opportunity analysis, market players' competitive study, investment opportunities, demand for future outlook etc. has also been covered and displayed in the research report.

Expand of Aerospace & Defense Industry to Drive the Market Growth

The booming aerospace & defense sector is attribute to be one of the major factors growing cyanate ester resins market. Owing to its great advantages, cyanate ester resins market is being highly utilized in various manufacturing processes of wings, antennae and other things used in the industry. In addition, cyanate ester resins are also useful in manufacturing exhaust of race cars and brakes. Thus, the increased demand of vehicles in the recent period is forecasted to bring lucrative growth opportunities for the market.

However, high fluctuation in prices of raw materials along with increasing issues related to reusability and recyclability and long processing and increased manufacturing costs is expected to operate as key restraint to the growth of the global cyanate ester resins market over the forecast period.

This report also provides the existing competitive scenario of some of the key players of the global cyanate ester resins market which includes company profiling of Lonza Group Ltd., Hexcel Corporation, Henkel AG & Co. KGaA, Argosy International Inc., Huntsman International LLC,

Mitsubishi Gas Chemical Company Inc., Toray TCAC Holding B.V, Solvay Group, Novoset, LLC, TenCate Protective Fabrics, and many more. The profiling enfolds key information of the companies which encompasses business overview, products and services, key financials and recent news and developments. On the whole, the report depicts detailed overview of the global cyanate ester resins market that will help industry consultants, equipment manufacturers, existing players searching for expansion opportunities, new players searching possibilities and other stakeholders to align their market centric strategies according to the ongoing and expected trends in the future.
