About David Arkenstone:

Five-time Grammy® Nominee David Arkenstone has established himself as one of the best contemporary instrumentalists of our time. This visionary continues to create distinctive tracks that inspire the imagination. A musical storyteller, David is passionate about taking listeners on a journey, creating sonic tapestries that evoke every emotion. "I envision a place where I would like to go, or an adventure I would like to take, and let my imagination run free," says David. "I've gotten countless messages from listeners who love to take these journeys with me. I'm sometimes surprised by how powerfully people respond to my music."

David enjoys touring and meeting his fans from around the world. "One of the most exciting things about performing live is the interaction I have with the audience. It's very different than making a recording, where you're not sure who will be listening to it. A lot of the roots of our musicianship come into focus in a live situation. You're in the moment, you perform your best, and many times reach new heights – then it's gone and on to the next one!"

David loves to travel and enjoys photographing the world. His recent trip to Iceland and parts of Europe will surely inspire new music.
