

# Cycle Labs Named a Cool Vendor in 2022 Gartner® Cool Vendors™ in Supply Chain Management Technology

*New report by Gartner recognizes vendors in supply chain management technology solutions.*

RALEIGH, NC, UNITED STATES,  
November 16, 2022 /

EINPresswire.com/ -- Cycle Labs, a leading software company in the enterprise test automation space, announces that it has been named a Cool Vendor in the October 2022 Cool Vendors™ in Supply Chain Management Technology report by Gartner, Inc. \*

“

We believe that being recognized as a Cool Vendor by Gartner is a tremendous honor, and we are thankful to our customers, partners, and employees for getting us here.”

*Josh Owen, CEO and Co-Founder*

Cycle was built for comprehensive continuous testing in one easy-to-use platform. It provides a [behavior-driven test automation](#) approach for all your enterprise applications and is the [test automation solution of choice for Blue Yonder Warehouse Management](#).

Gartner Cool Vendor research is "designed to highlight interesting, new and innovative vendors, products, and services. This research does not constitute an exhaustive list of vendors in any given technology area." This year's Cool Vendors in Supply Chain Management Technology

report showcases solutions for supply chain technology leaders "seeking to address their digital supply chain transformation initiatives."

“We believe that being recognized as a Cool Vendor by Gartner is a tremendous honor, and we are thankful to our customers, partners, and employees for getting us here,” said Josh Owen, Cycle Labs CEO and Co-founder. “According to us, our inclusion in the Gartner Cool Vendor report confirms what we already believe that [there is a better way](#) and supply chain technology leaders are making it a top priority to drive process improvements over the next couple of years. We are thrilled to be at the forefront of this digital transformation.”

Cycle Labs leverages intelligence to further automate testing and integration requirements. The

platform can be used to run any number of applications and automate end-to-end processes, including order-to-cash, transportation planning, and shipment execution. From business analysts to developers to QA professionals, Cycle facilitates collaboration and communication for every level of user.
