## Key Trends In The Veterinary Antibiotics Market

Companies in the veterinary antibiotics industry are increasingly collaborating and partnering with other players to drive product innovations. To succeed in the increasingly competitive veterinary antibiotics market, veterinary medicines companies are entering into new geographies and developing innovative products through sharing skills and expertise with other

players. In June 2021, the Pride Veterinary Medical Community announced a collaboration with Covetrus, an animal health technology company based in the United States. With this collaboration, covetrus empower the veterinary healthcare professionals by providing advanced veterinary medicine.

### [Overview Of The Veterinary Antibiotics Market](#)

The veterinary antibiotics global market consists of sales of veterinary antibiotics and related services by entities (organizations, sole traders and partnerships) that manufacture veterinary antibiotics. Veterinary antibiotics are drugs that are used to treat infections and diseases in animals caused due to bacteria. Examples of branded veterinary antibiotics include Draxxin (tulathromycin), Apoquel (oclacitinib tablet), and Convenia (cefovecin sodium). The veterinary antibiotics industry includes companies involved in the production of antibiotics used for therapeutic and prophylaxis treatment of animals.
