

At 11.8% CAGR, North America Greenhouse Produce Market Size Worth USD \$3,739 million by 2026: IndustryARC

Growing demand for high quality food and shortage of land in agriculture industry are likely to aid in the market growth of the North America Greenhouse Produce

HYDERABAD, TELANGANA, INDIA,
November 16, 2022 /

EINPresswire.com/ -- IndustryARC, in its latest report, predicts that the [North America Greenhouse Produce Market](#) size is estimated to reach \$3,739 million by 2026, growing at a CAGR of 11.8% over 2021-2026. Greenhouse

farming is the method of growing fruits, vegetables and other produce in a controlled environment such as a greenhouse. Cultivation in greenhouses has allowed farmers to improve their productivity while also improving the quality of their products by isolating them in micro-ecosystems with ideal conditions for plants to grow well. Higher yields compared to conventional agricultural techniques along the population explosion contributes to increased demand of fruits and vegetables. Unfavorable weather condition, shortage of agricultural land and water are the main drivers for commercial greenhouses. Growing demand for high quality food and shortage of land in agriculture industry is the major factor driving the growth of this market. Furthermore, greenhouse provide higher yield than traditional methods is set to further enhance the overall market demand for North America Greenhouse Produce Market for the period 2021-2026.
