DOUGLAS, ISLE OF MAN, November 16,  
2022 /EINPresswire.com/ -- [Copra Meal  
Market Size](#) Analysis:

The global copra meal market is expected to grow at a notable CAGR during the forecast period of 2018–2028.

Globally, there is an increasing demand for animal-sourced products such as meat, eggs, and milk compared to plant-originated foods such as cereals. The demand for these animal products

necessitates using alternative meals such as copra meal to increase production, thereby stimulating copra meal growth in the animal feed market. Globally, buyers of animal feed must adjust rations in response to fluctuating market prices. As a result, copra meal supplanted other available feeds as the preferred alternative.

Increasing health concerns and rising disposable income, particularly in developing nations such as India and Brazil, are driving the rapid expansion of the meat industry. The rising demand for animal products and processed meat has presented producers of copra meal with an opportunity to expand its application. An increase in demand for various animal products, such as milk, dairy products, meat products, eggs, and other non-food items, has led to an increase in the use of various alternative meals, including copra meal, thereby contributing to the expansion of the copra meal segment of the animal feed market. performance and rapid weight gain in their animals in a short amount of time. To meet the demands of the meat processing industry, livestock farmers must produce high-quality and hygienic meat, which presents a formidable challenge. The expansion of the meat products industry has created an opportunity for coconut meals to stimulate the market, as these meals stabilize the immune system and improve the performance of animals.

Some of the key findings from the report include:

According to the report, copra meal is expected to grow at a CAGR of \*\* % from 2019 to 2028.

The key drivers of this market growth are increasing demand from the livestock and poultry industries and rising awareness about the health benefits of copra meal.

Some of the challenges faced by the copra meal market are competition from other sources of animal feed and fluctuating prices of raw materials.

Key players in the copra meal market include CIIF OMG, Feedipedia, KERAFED, Primex Group, Greenville Agro Corp., Kalpataru, TANTUCO ENTERPRISES, PT. Golden Union Oil, and Samar Coco Products Manufacturing Corp.

## COVID-19 Scenario

With the outbreak of COVID-19, the demand for copra meal has increased as it is used as animal feed. The prices of copra meal have also increased due to the rise in demand. However, the supply of copra meals is limited as the production of copra is affected by the lockdown imposed in many countries. This has led to a situation where the prices of copra meals are expected to increase further in the future.
