CHIYODA-KU, TOKYO, JAPAN,
November 16, 2022 /

EINPresswire.com/ -- [Srust](#) (Srust, Inc. President: Kota Nozaki) has announced that its [free-ist](#) platform dedicated to matching the world's top Skilled Academia and Corporate [Researchers](#) in science and technology has reached over 5000 registered users Globally.

Researchers Come from High ranked Universities in Japan such as Tokyo, Kyoto & Osaka Universities, and OIST, or Globally such as Harvard, Columbia, Yale, Stanford, Oxford, and

Cambridge. Besides academia, candidates from top companies have joined also, such as Astra Zeneca, Pfizer, Sanofi, Sony, Honda, Deloitte, Amazon, Scientists from more than 110 countries have already joined and are mainly based in Japan, the United States, the UK, the EU, Australia, and Canada.

“

free-ist has helped us to assign the right scientists for our projects. It's an innovative platform which can directly access to the individual scientists globally.”

*Abhishek Kumar, Technical
Project Manager, JoVE*

- free-ist: <https://free-ist.srust.co.jp/>

free-ist is the first unique platform that offers a wide range of positions, from full-time, part-time, or freelance positions with flexible working hours and high

compensation.

The platform has helped companies Easily recruit Highly Skilled & vetted Scientific Researchers

and save them time and money with its Smart AI technology that improved matching candidates with the right companies.

Strust has been successfully working with Deep-tech ventures in particular and helped with recruiting full-time employees faster. Furthermore, support companies with freelance scientists that provide highly demanded skills such as Data science & analytics, consultation, technical writing & translation.

Even though most of our users are in the Biotech/Medical, Chemical, and Data Science fields, we plan to expand our user database to cover other areas to meet the high needs of other related businesses in the future.

□ About Strust Inc.

Strust develops and operates a global talent-matching platform for scientists with the mission of "Innovation and happiness through the power of science" and the vision of "maximizing the potential of scientists and winning the world from the R&D field".

We are promoting our business both domestically in Japan and internationally, aiming to create a better environment for researchers to continue working as researchers, encouraging collaborations, and joint research between industry and academia.
