Companies Profiled in this report includes:

- Arthrex Inc.
- Conmed Corporation
- Medtronic
- DePuy Synthes
- Stryker
- Smith & Nephew
- DJO Global Inc.
- Zimmer Biomet

Increasing demand for minimally invasive surgeries and the growing number of sports medical centers is shaping the growth and development of the sports medicine devices market. The high growth is attributed to the increasing adoption of computer-assisted robotic surgeries to reduce hospital stays and recovery times and a faster return to normal activities in sports injuries, which is increasing the market growth.

The report offers in-depth assessment of the growth and other aspects of the Sports Medicine market in important regions. The report has been curated after observing and studying various factors that determine regional growth such as economic, environmental, social, technological, and political status of the particular region. Analysts have studied the data of revenue, production, and manufacturers of each region. This section analyses region-wise revenue and volume for the forecast period of 2019 to 2028. These analyses will help the reader to understand the potential worth of investment in a particular region.

Within the report, the market is segmented into product type, application, end-user, and geography. Based on product type, the market is segmented into body reconstruction products, body support and recovery products, body monitoring and evaluation, and accessories. In 2021, the body reconstruction products segment held the largest share of the market.
