

GRECO Announces New AIA Continuing Education Course on Building Codes for Commercial Railings

Designing Code-Compliant Railing Systems is GRECO's Newest AIA Approved Course

TAMPA, FL, UNITED STATES, November 18, 2022 /EINPresswire.com/ -- GRECO Architectural Metal Products (GRECO), a leading manufacturer of high-quality architectural railings and metal products for multi-family and commercial structures in the United States and Canada, is excited to announce its newest continuing education course for architects and designers.

New AIA Course from GRECO

“Designing Code-Compliant Railing Systems” is an AIA (American Institute of Architects) approved course offering architects one learning unit for health, safety, and welfare. This AIA course provides a guide to [building codes](#) and standards related to handrails, guardrails, and glass railings for commercial applications.

“

We are excited to be introducing our third AIA course on commercial railings”

Matt Palmer, President of GRECO's U.S. Operations

This is GRECO's third AIA course and is part of the company's continuing education program, helping architects and industry professionals understand critical

topics related to [railing designs](#), methods of construction, building codes, and much more.

“We are excited to be introducing our third AIA course on commercial railings,” says Matt Palmer, President of GRECO's U.S. Operations, “We continue to invest time and money in this initiative. As an organization and industry leader, we understand the importance of providing quality education and information on commercial railings.”

GRECO has three AIA courses:
“Designing Code-Compliant Railing Systems,” “Commercial Railing Designs & Stainless Steel,” and “Designing with Aluminum Railings in Commercial Applications.” All courses are available online in a video format and live through requested Lunch+Learn presentations.
