Private Japanese Lesson A private Japanese lesson is a service that allows students to take one-on-one lesson with a Japanese language instructor.

Attain Online Japanese Language School newly opened in April 2022. The school's strength is that students can enroll from anywhere in the world with the Internet connection, and it offers live classes taught by qualified, field-experienced Japanese language instructors at times that are easy to attend from various time zones around the world. The curriculum is structured based on Attain Online Japanese Courses, the online Japanese Language Proficiency Test (JLPT) learning videos produced since 2014, and is ideal for learners who want to prepare for the JLPT efficiently.

Meanwhile, many individual needs were raised, such as "I want more conversation practice," "I want to concentrate on my weak areas," and "I want to study the JLPT at my own pace. To respond to these needs, the school have decided to provide the service of "private Japanese lesson (one on one lesson)". The private Japanese lesson is hold by Japanese language teachers who can respond to the various learning needs of Japanese language learners.

A private Japanese lesson is a service that allows students to take one-on-one lesson with a Japanese language instructor. The content of the lessons can be flexibly customized to the

individual needs of the student, from JLPT preparation to conversation practice, or specializing in a specialized field of Japanese language. Of course, the curriculum can be decided upon the consultation with an experienced Japanese language teacher.

Unlike group lessons, which only accept enrollment twice a year, in spring and fall, the students can enroll to the private Japanese lessons throughout the year with the purchase of a ticket. The class schedule is transferable, so there is no need to worry about sudden schedule changes.
