

# Cancer Diagnostics Market Worth US\$ 43.09 Bn by 2030, Growing at a CAGR of 11.2% from year 2022-2030

*The Cancer Diagnostics market is expected to hit US\$ 43.09 billion by 2030, recording a CAGR of 11.2% during the forecast period.*

NEW YORK, UNITED STATES, November 18, 2022 /EINPresswire.com/ -- The [Cancer Diagnostics Market](#) is being driven by the constant development of new products, as well as the growing need for early diagnosis of different cancers. Furthermore, the penetration of technologically advanced laboratory equipment has enhanced oncological screening in providing accurate results, resulting in significant growth of the healthcare and diagnostics sector. As the prevalence of cancer rises, thus demand for these screening tests and imaging modalities used to track disease development. Early detection has been shown to save lives when it comes to cancer. Some people with cancer who are diagnosed and treated early may have a greater long-term survival rate than those who are not diagnosed until symptoms arise.

Companies Profiled in this report includes:

- Abbott
- GE Healthcare
- Hologic Inc.
- Agilent Technologies Inc.
- Roche
- FUJIFILM Corporation
- Siemens Healthineers AG
- BD

Cancer Diagnostics Market Segmentation:

Product:

- Consumables
- Instruments

Technology:

- Imaging

- In Vitro Diagnostic Testing
- Biopsy
- Others

#### Application:

- Breast Cancer
- Lung Cancer
- Melanoma
- Colorectal Cancer
- Others

#### End User:

- Diagnostic Centres
- Hospitals and Clinics
- Research Institutes
- Others

#### Region

- North America
- Europe
- Asia Pacific (APAC)
- South & Central America
- Middle East & Africa

Breast Cancer Application is Predicted to accelerate at a rapid rate:

Breast cancer account for the largest share of the market owing to the rising geriatric population and the increasing prevalence of breast cancer around the world.
