## Amusement Parks And Arcades Market Trends

Amusement parks are deploying innovative applications of the Internet of Things (IoT) technology to improve operational efficiencies and enhance customer experiences. IoT is the network of physical devices, vehicles, and other items embedded with electronics, software, sensors, actuators, and connectivity which enables these things to connect, collect and exchange

data. Amusement parks are using beacon-enabled wristbands to get real time customer data which helps parents (guests) to locate their children. Such bands also help managers to identify the areas of improvement and send real-time information, tips and promotions to the guests based on their locations. For example, Disneyworld has successfully implemented IoT wristband concept at its amusement park located in Orlando, Florida. This wristband serves as digital entrance ticket for the guests and facilitates transactions.

### [Amusement Parks And Arcades Market Overview](#)

The amusement parks and arcades market consists of sales of farm machinery and equipment, and lawn and garden tractor and home lawn and garden equipment by entities (organizations, sole traders or partnerships) that produce agricultural implements, including combines, cotton ginning machinery, fertilizing machinery (farm-type), haying machines, milking machines, planting machines (farm-type) poultry brooders, feeders and waterers, power lawnmowers, snowblower and throwers (residential-type) tractors and attachments (lawn and garden-type and farm-type).
