chosen industry of dumpster services is one that has been hit particularly hard by the lack of customer care and service.

Precision Disposal of South Florida is the second branch within the Precision Disposal family of companies, and the first to launch in Florida. Precision Disposal works to blow

customers away daily, " our internal motto is we are ' working for reviews '...everything else is secondary " Bennett continues...If we work for the review, and with the review in mind, our customers are sure to have that 5-star and above experience, because it's virtually everything we focus on, and when we do, everything else falls into place for us as well.... reviews are the bloodline of a business, not just because people value the 5 stars, but because people know how

Precision Disposal of South Florida shares in and embodies this motto as well- Having been in business for a little under a year now, they have earned just shy of 50 reviews, most of which are 5 stars. "What people don't see, are all the smiling faces we get to see whose favorite thing to say to us, the boots on the ground, is they appreciate us, people also do not see the level of repeat customers we have" Nick Bennett elaborates...." we see folks who started with us getting a [Dumpster Rental Port st Lucie](#) turn in to multiple [roll-off dumpster service Port St Lucie](#) clients and beyond- we've gone as far north as Melbourne, as far west as Tampa for these same loyal clients!"
