

Excellence in Equity Awards Announce Partnership to Provide Schools with Access to College Search and Selection Tool

Virtue Analytics has signed on as a Silver Sponsor and will provide finalists and winners with complimentary licenses to the Top5 College List tool

WASHINGTON, DC, USA, November 21, 2022 /EINPresswire.com/ --

Washington, D.C. and St. Paul,

Minn.—The [Excellence in Equity Awards](#) and [Virtue Analytics](#) have

announced a new partnership that will increase equitable access to detailed, timely information about higher education options for K-12 counselors, parents and students. Through the agreement, Virtue Analytics has become a Silver Sponsor of the awards program and will provide 2022 finalists

and winners in the educator categories with a valuable new benefit to support their equity initiatives: these educator honorees are eligible to receive a free one-year license for their school to use the [Top5 College List](#) multiple scholarship estimator tool.

The Excellence in Equity Awards announced a new partnership to provide enhanced benefits to the program's finalist and winning educators

"Equity in education means access and opportunity at every level across K-12, but also beyond. This includes true preparation with workforce-ready skills and the ability to make it to and through a course of higher learning," said Ross Romano, Program Chair of the Excellence in Equity Awards and Strategic Advisor to the American Consortium for Equity in Education. "For these reasons, I'm proud to enlist Virtue Analytics and their Top5 College List tool as an Excellence in Equity Awards partner, which expands our scope and provides schools with an important resource to support students' futures."

Top5 College List enables high school counselors, students and their families to easily compare comprehensive costs and available federal, state and institutional financial aid and scholarship offerings across their desired colleges and universities, all in one place. Users need only fill out a

simple three-minute survey to begin. The resulting data — which otherwise is difficult and time-consuming to collect from numerous sources — provides prospective students with cost transparency and better financial literacy in their decision-making, addressing the pressing concerns caused by rising tuition and loan debt.

“Virtue Analytics is looking forward to this opportunity to connect with Excellence in Equity Award winners, learn about their current challenges preparing students for successful college selection, and provide them with a tool to improve the process,” said Vikas Mehrotra, Founder and CEO

of Virtue Analytics. “We’re pleased to be part of this program as we support equitable access to affordable, high-quality learning for all students.”

As a Silver Sponsor of the Excellence in Equity Awards, Virtue Analytics will provide award-winning educators with access to its Top5 College List tool

Top5 College List makes it easy for counselors, parents and students to compare comprehensive costs across multiple colleges and universities

The Top5 College List database currently includes more than 1,000 colleges and universities, with new schools added daily. Once students identify the best options for them, they can use the tool’s built-in features to begin the application process. By implementing this tool, high schools will have the ability to impact equitable opportunities and outcomes for their students beyond their K-12 years, ensuring they have the necessary information to apply and enter an affordable higher education institution with appealing academic programs.

“

I’m proud to enlist Virtue Analytics and their Top5 College List tool as an Excellence in Equity Awards partner, which...provides schools with an important resource to support students’ futures.”
