The release of Fantastic Voyage follows an exciting year of singles releases including the breakout hits Star, Stay with Me and On My Own, and is the group's fourth full-length album. According to frontman Johan Hauck, the group "...relied heavily on our 80s synthpop and synthwave music influences for this release and we are very excited to finally share this album with the world. Utilizing equipment including the Rhodes Chroma Polaris, Linn 9000, Roland Juno-106, SCI Pro One, and Roland JP-8080, we were able to channel nostalgia in order to create some infectiously danceable tracks."

About: 2DCAT is an independent American and Swedish synthpop trio, primarily based out of San Francisco, California and Washington, DC. Its members have toured numerous countries including Japan, Germany, Sweden, Canada and the United States.
