

# Pneumatic Cylinder Market Size, Revenue Analysis, PEST, Region & Country Forecast, 2020–2028

*Rising demand for smart pneumatic cylinders and low maintenance cost are likely to stimulate demand.*

NEW YORK, NY, UNITED STATES,  
November 21, 2022 /

EINPresswire.com/ -- The [Pneumatic Cylinder Market](#) is expected to grow from USD 1.62 Billion in 2020 to USD 2.08 Billion by 2028, at a CAGR of 3.2%.

Advances in pneumatic cylinders are a key factor in the rapid growth of the global market for pneumatic cylinders.

Pneumatic cylinders offer benefits such as fast cylinders movement, low maintenance costs and cleanliness. The air used in pneumatic cylinders also prevents complications from the internal parts of the system because the air is dry and free of moisture. In many end - user industries, these factors increase the adoption of pneumatic cylinders.

In addition, the integration of IoT with pneumatic cylinders and high demand from the food processing industry to comply with regulatory standards are some of the factors that have a positive impact on the growth of the global market for pneumatic cylinders.

Reports And Data

growth of the global market for pneumatic cylinders.

- On the basis of Application, the Industrial Machinery segment is expected to have the largest market share during the forecast period due to the recovery of the global economy, the development of emerging countries, the expansion of Chinese industrial expenditure, the automotive market, the increase in pneumatic cylinder consumption will be significant.
- On the basis of Type, the pneumatic cylinder market is segmented into single-acting cylinders and double-acting cylinders. The segment of double-acting cylinders is expected to grow at the highest CAGR of 4.89% during the forecast period due to the different advantages of double-acting pneumatic cylinders.
- Asia Pacific is forecasted to grow the highest at a CAGR of 5.6% during the forecast year and is expected to maintain its dominance over the forecast period. Increasing government infrastructure investment leads to a high demand for earth moving equipment, which in turn increases the market for pneumatic cylinders.

Segments covered in the report:

This report forecasts volume and revenue growth at a global, regional & country level, and provides an analysis on the industry trends in each of the sub-segments from 2016 to 2028. For the purpose of this study, Reports and Data have segmented the market on the basis of Application, Product and regional analysis.

Application (Revenue, USD Million; 2020–2028)

- Industrial Machinery
- Mobile

Product (Revenue, USD Million; 2020–2028)

- Single-acting cylinder
- Double-acting cylinder

Regional Analysis Covers:

- North America (U.S., Canada)
- Europe (U.K., Italy, Germany, France, Rest of EU)
- Asia Pacific (India, Japan, China, South Korea, Australia, Rest of APAC)
- Latin America (Chile, Brazil, Argentina, Rest of Latin America)
- Middle East & Africa (Saudi Arabia, U.A.E., South Africa, Rest of MEA)

To summarize everything stated above, the report offers key insights into the Pneumatic Cylinder market to allow the reader to gain a complete understanding of the Global Pneumatic Cylinder Market through accurate estimations, a panoramic view of the market scenario, competitive landscape, factors influencing the growth of the market, driving factors, restraints, regulatory framework, growth prospects and opportunities, and factors propelling the market forward. The research study offers an in-depth view of the industry to offer a competitive edge to the reader and help them in formulating beneficial investment plans. The report provides a comprehensive overview of the market with facts relating to the past, present, and future of the Global Pneumatic Cylinder Market.

Thank you for reading our report. For further queries or inquiries about customization, kindly connect with us to know more. Our team will ensure the report is tailored according to your needs.

About Us:

Reports and Data is a market research and consulting company that provides syndicated research reports, customized research reports, and consulting services. Our solutions purely focus on your purpose to locate, target and analyze consumer behavior shifts across demographics, across industries and help client's make a smarter business decision. We offer market intelligence studies ensuring relevant and fact-based research across a multiple industries including Healthcare, Technology, Power and Energy, and Chemicals. We consistently update our research offerings to ensure our clients are aware about the latest trends existent in the market.
