VANCOUVER, BRITISH COLUMBIA,  
CANADA, November 21, 2022  
/EINPresswire.com/ -- A Global [Light  
Weapons Market](#) Research Report from  
Emergen Research has been  
formulated by analyzing key business  
details and an extensive geographic  
spread of the Light Weapons industry,  
encompassing key business details and

extensive geographical coverage. In addition to providing crucial statistical data about the Light Weapons market, this study covers qualitative and quantitative aspects of the Light Weapons market. In addition to historical data from 2017 to 2017, the research study provides an accurate forecast until 2027 for the Light Weapons market. A comprehensive analysis of established and emerging players in the market is summarized in the report. The report also covers the business overview, the product portfolio, and the strategic alliances and expansion strategies of the companies.

The global light weapons market is forecasted to be worth USD 17.39 billion by 2027, according to a current analysis by Emergen Research. The key factors influencing the market growth include growing adoption of the light weapons in the special taskforce, rising domestic violence & terrorist attacks, increasing interest in the adoption of mobile rocket launchers, anti-aircraft & anti-submarine missiles, to name a few.

Besides, extensive rise in the cross-border conflict, broadening the number of armed law enforcement troops & new taskforce battalions, and asymmetric warfare & intercountry border conflicts are some of the additional reasons behind the remarkable growth of the market. Also, reduced manufacturing costs of the guns with the help of 3D printing mechanisms, growing demand for the smart guns, and increasing usage of the polymer in the arms industry are some

of the subordinate market propelling factors that create a huge breakthrough in the market growth.

The global market landscape of light weapons is expected to remain in a very competitive and highly fragmented landscape consisting of a number of both the small start-ups, medium enterprises, and large conglomerates. During the projected era, increasing demand for technological development and higher diversification in offered products ensure the enormous potential for the innovative players.

Some Key Highlights from the Report

In January 2020, The Adani Group, an Indian conglomerate, announced its acquisition of a light weapons business facility in Gwalior, India. With this acquisition, the company entered in the Light Weapons business where the company will be capable of producing machine guns, carbines, and other light weapons.

The polymer sub-segment is growing with the fastest CAGR of 6.3% owing to its higher efficiency in the manufacturing with 3D printing techniques and reduction in the overall costing with higher applicability in the sports and hunting purposes.

The regions in the Asia Pacific lead by China, India, Pakistan, and South & North Korea are allotting a considerable budget for their defense & law enforcement grooming purposes.

Besides, growing incidences of interpersonal stand-offs, asymmetric warfare, terrorist activities, domestic violence, along with higher economic development and enhancement in the manufacturing industry, deliberately help propel market enforcement.
