

Tree Experts Orlando Hits a Major Milestone of Planting 20,000 Trees

ORLANDO, FL, USA, November 22, 2022 /EINPresswire.com/ -- After consistent hard work and sacrifices, [Tree Experts Orlando](#) finally announced that it had managed to plant 20,000 trees.

"It has taken Tree Experts Orlando 20 years to achieve one of its big missions of planting at least 20,000 trees in Orlando and the suburbs," said the CEO. "This happened earlier than the company had expected. The consistency and hard work of the whole Tree Experts Orlando team made the dream become a reality quickly. There were also a lot of sacrifices made by the team, like working overtime, and offering affordable services."

Orlando Tree Pruning

According to the CEO, planting trees is the best way to make the surrounding healthier and greener.

"The reason behind Tree Experts Orlando focusing too much on planting trees," said the CEO, "is because of the many benefits that the trees offer. The trees provide human beings and animals with fresh air, prevent soil erosion, as well as offering shade. What's more? They make the surrounding more appealing."

The CEO also revealed that among the 20,000 trees planted by Tree Experts Orlando, only 115 trees died in the process. He added that homeowners should seek immediate assistance to keep the tree death rates to a minimum.

"With Tree Experts Orlando," said the CEO, "tree care doesn't end after planting. The company makes all the necessary follow-ups to see to it that the trees thrive into healthy and appealing trees. The team also provides the tree owner with clear guidelines on how to take care of the trees after planting. Afterward, the client can reach out to Tree Experts Orlando anytime in case any professional service is needed. This has enabled the trees planted by the company to survive and so far, only 115 trees have not survived. After research by the company, most of these trees died as a result of the ignorance of the homeowners to seek professional assistance after noticing certain abnormalities. This should be a wake-up call to the homeowners that tend to ignore 'minor' negative changes in trees. It might appear minor, but the effects could have gone deeper than you can imagine. Therefore, to escape the risk of losing the tree, it is advisable to seek immediate assistance."

The CEO made it clear that achieving the big mission does not mark the end of their hard work.

"Completing this big mission does not mark the end of Tree Experts Orlando's hard work," said the CEO. "It marks the beginning of new, bigger missions. The achievement will serve as a motivation to keep the company going even harder on itself."

The CEO also noted that the company charges will remain the same. He then urged homeowners in Orlando and the neighboring districts to make their bookings with Tree Experts Orlando.

"Planting 20,000 trees is enough proof to tell that Tree Experts Orlando has gained a lot of popularity here in Orlando and the suburbs," said the CEO. "The company will not take this as an advantage to overprice its services. It will let homeowners continue enjoying good tree care services at an affordable rate. This is the only way the team can achieve the new and uncompleted missions. Homeowners should take the advantage of the affordable rates to place their bookings with Tree Experts Orlando."

Tree Experts Orlando offices are located at 10802 Satellite Blvd, Orlando, FL 32837, United States. Homeowners can also reach out to the company at +1 321-340-2817 and sales@treeexpertsorlando.com.
