

# Affordable consulting for business owners

*Affordable business consulting available for a limited time*

ORLANDO , FL, UNITED STATES ,  
November 23, 2022 /

EINPresswire.com/ -- An Orlando FL based Business [Consulting](#) Firm is offering an incredible program for small business owners who need help. The program is designed to help small business owners first and get paid later. In this program, the clients pay nothing upfront but agree to pay 60 days after the consulting has started. That's 60 days of help before any money is paid, that's a great deal to help business owners. [John Hopper](#) of [The Greatest on the Planet](#) is quoted as saying "Most business owners feel that they are working alone and it's very stressful on them. We want to help them and let them know they don't have to be alone in the business owner journey, we're certainly here to help"

John Hopper, President

“

This no upfront investment program is in effect immediately and will stay in effect until we can't take on any additional clients in the program”

*John Hopper*

Most small business owners need help. It's simply too difficult to walk the road of business ownership alone. The number of different jobs that most business owners have to do is an unbelievable task. Often times the small business owner is the sales team, the marketing team, the accounting department, human resources, and customer service all at the same time from one person. It's a lot to deal with

This no upfront investment program is in effect

immediately and will stay in effect until we can't take on any additional clients in the program said, John Hopper

John continued that we're not going to work for free but we can certainly start working and help these business owners bring in work and better organize the business. We think it's a good thing to help these small business owners when they are struggling and we're here to help them
