Rising consumer inclination towards maintaining healthy lifestyle has pushed the consumption of healthy food ingredients and food products. Consumers are more conscious and finicky about their regular diet and food intake. There has been an increase in the consumption of tree nuts, which typically include vegetables, organic fruits, nuts as well as avocados. According to this research, this has been observed since past few years. This is on account of the shift towards healthy eating habits as well as preferences among fast expanding middle class in the especially in the emerging economies.

Obesity across the globe nearly tripled since 1975. In 2016, more than 1.9 Bn individuals above 18 years of age along with older population were overweight, of which almost 650 Mn population was suffering from obesity. According to World Health Organization, obesity and overweight is the main cause of death across the globe than underweight issues. This has triggered an increase in the consumption of vegetables and various types of fruits, especially berries, avocados and grapes, as these help in the reduction of cholesterol content in the body as well as assist in lowering the triglyceride levels, consequently helping in reduction of weight. The increasing health awareness has thus pushed the demand for avocados, thus augmenting the market's growth.

Global Avocado Market: The Past, the Present and the Future
