Persistence Market Research (PMR) has released a new market study on the plastic pipes market that includes the global industry analysis for 2014–2018 and forecast for 2019–2029. The report specifically considers plastic pipes utilized in the construction industry, especially in residential and commercial applications (excluding industrial plant construction). Generally, pipes are used for plumbing, heating & cooling, soil & waste, HVAC (ventilation, air conditioning), and other systems. Other industries such as oil & gas, agriculture, and chemical also prominently utilize plastic pipes.

Persistence Market Research (PMR) recently published a study report on the global PVC Pipes Market. The report provides detailed valuation on the key market dynamics such as drivers,

trends, opportunities, and restraints, along with detailed information about the PVC Pipes Market structure. This market research report represents exclusive facts and figures about how the PVC Pipes Market will grow over the forecast period.

#### Key Companies-

The report has profiled some of the important players prevalent in the global like –

- Aliaxis Group S.A.
- Sekisui Chemical Co., Ltd.
- Wienerberger AG
- Mexichem SAB de CV
- JM Eagle, Inc.
- ASTRAL POLYTECHNIK LIMITED
- China Lesso Group Holdings Ltd.
- Geberit AG
- Nan Ya Plastics Corp.
- Finolex Industries Ltd.
- Chevron Phillips Chemical Company
- Formosa Plastics Corporation
- Georg Fischer Ltd. and more

This report covers the sales volume, price, revenue, gross margin, manufacturers, suppliers, distributors, intermediaries, customers, historical growth and future perspectives in the PVC Pipes Market.

#### Construction and Oil & Gas Exploration Projects – A Strong Impetus

Countries such as U.S., India and China are leading contributors to the growth of construction industry, including residential, commercial, and industrial sectors, and are estimated to contribute more than 50% to the growth of global construction industry in the near future. Increasing onshore exploration activity and transportation via pipelines, in turn, is expected to boost the demand for pipes during the forecast period.

More than 130 ongoing projects of natural gas exploration and transportation pipelines in the U.S. shall be completed in nearby future. The expansion of electronics & telecommunication has resulted in increased demand for pipelines to protect underground cables. This global expansion of electronics and telecommunication industry is expected to fuel the demand for plastic pipes over the forecast period.

More than 50% of the world's population resides in urban areas. This percentage is projected to expand, especially in China and India, to 66% by 2050 as per United Nations DESA Website. Growing urbanization is expected to scale up the demand for plastic pipes manufacturing for various applications, such as wastewater drainage systems, gas pipes lines, and water pipelines, among others.

## PVC Pipes Market: Research Methodology

In PMR's research report, exclusive research methodology is utilized to conduct comprehensive research on the development of the PVC Pipes Market and reach conclusions on the future growth factors of the market. In this research methodology, secondary and primary research is utilized by assistant analysts to ensure precision and reliability of the conclusions.

Secondary resources referred by analysts during the evaluation of the PVC Pipes Market study include facts and figures from World Bank, OEM websites, government websites, white papers, trade journals, and external and internal databases. Analysts have thoroughly interviewed several industry experts, such as sales supervisors, sales operation managers, product portfolio managers, senior managers, market intelligence managers, marketing/product managers, and production managers to provide insightful information.

Comprehensive information acquired from primary resources and secondary resources is validated from companies in the PVC Pipes Market to make PMR's projection on the growth prospects of the PVC Pipes Market more accurate and reliable.

Region Coverage (Regional Production, Demand & Forecast by Countries etc.):

- North America (U.S., Canada, Mexico)
- Europe (Germany, U.K., France, Italy, Russia, Spain etc.)
- Asia-Pacific (China, India, Japan, Southeast Asia etc.)
- South America (Brazil, Argentina etc.)
- Middle East & Africa (Saudi Arabia, South Africa etc.)

## Key Stakeholders

- PVC Pipes Market Manufacturers
- PVC Pipes Market Distributors/Traders/Wholesalers
- PVC Pipes Market Subcomponent Manufacturers
- Industry Association
- Downstream Vendors

You Can Customize this Report As per Your

Requirement@<https://www.persistencemarketresearch.com/request-customization/16597>

Starting with the overview of Wool Yarn Market, it presents an overall analysis of the latest trends that are prevalent in the industry. The report begins with the description of the market surroundings and the analysis of the size and forecast of product or service based on regions and applications. In addition to it, the report also introduces the market competitive landscape among the vendors and manufacturers that contribute to the growth of the product or service. The company profiling and market price analysis in relation to the value chain features is also covered in the report. The data experts have examined and scrutinized the industry trends in the key regions. 2022 has been considered as the base year, with the forecast period extending to 2030.
