EINPresswire.com/ -- According to IMARC Group's latest report, titled "Gaming Chair Market: Global Industry Trends, Share, Size, Growth, Opportunity and Forecast 2022-2027." the global gaming chair market reached a value of US\$ 1.07 Billion in 2021. Looking forward, IMARC Group expects the market to reach a value of US\$ 1.7 Billion by 2027, exhibiting a [CAGR of 7.10%](#) during 2022-2027.

Industry Analysis:

A gaming chair is a special ergonomic chair designed with a high, winged back that offers enhanced maneuverability and comfort to gamers. It includes swiveling bases, caster wheels, head cushions, and armrests, which can be adjusted in multiple settings to mitigate stress and impact on the body caused by sitting for a longer duration. Apart from this, gaming chairs are customizable, durable, and adjustable, due to which they are extensively used by gamers for getting lumbar support, enhancing overall physical posture, and lowering muscle strain.

Gaming Chair Market Trends and Drivers 2022-2027

The increasing popularity of gaming as an educational and entertainment medium amongst young individuals, especially during the coronavirus disease (COVID-19) pandemic, represents

one of the major factors driving the gaming chair market growth. Moreover, the emerging trend of online esports tournaments and the increasing prevalence of lifestyle disorders, including carpal tunnel syndrome due to prolonged sitting, are supporting the market growth. Additionally, the introduction of premium state-of-the-art gaming chairs largely integrated with additional accessories, such as consoles and speakers, to improve the immersive gaming experience is propelling the market growth.
