Fast Food Market 2022 - Opportunities And Strategies  
– Global Forecast To 2030

The Business Research Company's "Fast Food Global Market Report 2022" forecasts the [fast food market](#) is expected to grow from \$575.31 billion in 2021 to

\$628.55 billion in 2022 at a compound annual growth rate (CAGR) of 9.3%. The Russia-Ukraine war disrupted the chances of global economic recovery from the COVID-19 pandemic, at least in the short term. The war between these two countries has led to economic sanctions on multiple countries, surge in commodity prices, and supply chain disruptions, affecting many markets across the globe. The fast-food market is expected to grow to \$802.62 billion in 2026 at a CAGR of 6.3%.

The increasing number of restaurants is a key factor significantly contributing to the growth in the fast-food market.

The new advancement in online food delivery is a key trend gaining popularity in the fast-food market. Major companies operating in the fast-food market are coming up with new ways to improve the online food delivery experience for customers.

### [Fast Food Market Overview](#)

The fast-food market consists of the sales of fast foods by entities (organizations, sole traders, and partnerships) that are used for quickly providing customers with a fast and convenient food option. Fast food is a quickly prepared food option that is cheap and easily available. Convenience and taste are the main selling points of fast food. In recent times, there have been efforts being made to improve the nutritional content and healthiness of fast foods by adding healthy ingredients.
