

Welcome the newest sponsor, SUMITOMO SHI FW, for the 15th Annual Energy from Waste Conference 2022

SAE Media Group Reports: SAE Media Group are pleased to announce that SUMITOMO SHI FW will be joining in sponsoring this year's Energy from Waste conference

CITY OF LONDON, LONDON, UNITED KINGDOM, November 23, 2022 /EINPresswire.com/ -- The 15th Annual [Energy from Waste](#) conference will take place in London at the Copthorne Tara Hotel on the 5th and 6th of December 2022, where attendees will learn how legislation and policy can stimulate more investment.

The event will bring together international waste management operators, developers, bankers, private equity financiers, technology providers and industrial end users for two days of intensive networking, discussing developments that are needed in technology, financing, and infrastructure to ensure the solutions are available to fast track the growth of the industry worldwide.

This year's two-day conference will have a specific focus on how Energy from Waste sits within the UK's ambition on the road to net zero and how technology within the Carbon capture and storage market coupled with the evolution and implementation of district heating is an essential part of that journey.

Benefits of Attending:

- Witness case studies giving updates on the challenges and opportunities facing Energy from Waste projects in England, Sweden, Norway, Turkey, The Netherlands, Scotland, and Poland
- Learn of the technical challenges of optimising output from energy from waste plants and the compatibility of EFW with [CCS](#) and Hydrogen production
- Determine the trends, Innovations, and challenges of sustainable financing
- Uncover how carbon pricing can drive a more circular economy where resource productivity is

higher and waste leakage lower.

- Understand the key economics of financing EFW plants and how they differ from other types of renewable generation
- Gain an in depth understanding of the opportunities that CCS technology has for Energy from Waste industry
