

# Highlights from the Construction Links Network platform this week - November 24, 2022

SUNDRE, ALBERTA, CANADA,  
November 24, 2022 /  
EINPresswire.com/ -- [Construction Links Network](#) is a unique news platform where [members](#) "Get More Eyes" on their digital content and increasing their SEO.

The network includes thousands of Canadian construction managers, contractors, developers, building managers, property managers, architects, designers, engineers, government officials and more. Members use this platform to share and onboard their digital content on the Internet, through social media and our popular e-Newsletters. Ideal for product / service releases, company announcements, blogs, podcasts, webinars, case studies, videos and more.

Top videos this week include a time-lapse of the new underpass installed for Hurontario LRT. This Timescapes time-lapse, which they captured for Mobilinx on the Hurontario LRT (Hazel McCallion Line) project, took place in Mississauga over the course of 55 hours in late October. This project was especially unique due to a process called "push box" or "box-jacking" used to complete the work. Timescapes wants to give a shout out to all involved parties in creating this video including Mobilinx, Bot Construction Group, Amico Affiliates, and Priestly Demolition Inc.

The second top video is courtesy of Top Fives who take a look at 15 of the biggest construction projects around the world that were partially built and cancelled during construction.
