Enara Law PLLC- Bringing Legal to Light

“

The primary objective of the Emerge Program is to make legal services accessible and affordable to all emerging startups and small businesses”

George Chebat, Managing Attorney

The Emerge Program offers tailored legal services specifically designed for emerging and growth-stage companies, such as: foundational business formation assistance; intellectual property protection; fundraising and capitalization table management; corporate governance and compliance; employment and equity compensation; [contracts drafting](#) and agreement negotiation; and [mergers and acquisitions](#) transactions.

“The primary objective of the Emerge Program is to make

legal services accessible and affordable to all emerging startups and small businesses” said George Chebat, Managing Attorney at Enara Law. “The Emerge Program is a unique solution to bridge the gap in accessibility to legal services by small businesses, which will allow many more founders and entrepreneurs to build their companies into the enterprises they envision.”

Adding further value for growing businesses, Emerge Program clients are also eligible to take part in Enara Law’s client industry networking groups- a collaborative environment where mutual

firm clients come together to facilitate cooperative business engagements and client interaction amongst one another.

Unlike other business law firms, The Emerge Program provides a unique pricing model- one that is readily available to entrepreneurs and executives before ever inquiring about their legal needs. Enara Law's Emerge Program pricing is published on their website, online, so that all companies can understand exactly the legal services being offered, and for a pre-published price- eliminating the fear of being overcharged and deceptive pricing practices.
