My Amazon Empire is an online educational program you can pay to join to learn how to sell online via Amazon. The program focuses heavily around how to successfully choose the right products to buy based on the current market demand. The program shows you how to see your competitors inventory levels, the daily sales for the item, and the fees associated with selling the items. Leaving you with a data driven buying decision when it comes to securing stock to sell. You are then shown how to successfully list the products on Amazon as a seller via their FBA network. FBA (Fulfilment by Amazon) allows you to send your inventory to Amazon to store, prep, pack and ship your orders out the same day. "The business model is suitable for working professionals who want to diversify and create an online income." Emma says.
