The Tomato Paste Market report provides a basic overview of the industry including definitions, classifications, applications and chain structure. The Tomato Paste market analysis is provided for the international markets including development trends, competitive landscape analysis, and key regions development status.

Tomatoes are one of the most widely cultivated vegetables on the planet. Tomato paste is a thick paste prepared by separating the peel from the tomato and then evaporating the pulp to make a thick paste. This paste is mostly used in the preparation of ketchup, as well as in soup and sauce cuisine and a variety of other meals. Tomatoes grown for commercial use usually have strong walls and are lower in moisture. In 2011, the Food and Agriculture Organization (FAO) stated that the global tomato production was approximately 130 million tons with China and Europe as leading tomato producing areas currently. India, Turkey, and the United States are considered to be other major tomato producers worldwide. Owing to its widespread application in food industry, the tomato paste market is expected to exhibit significant growth in the upcoming years.
