

HealthBanks Announces \$0 Enrollment Fee for the Holidays!

In celebrating the upcoming holiday season, HealthBanks makes cord blood banking affordable with \$0 enrollment for its three cord blood banking plans.

IRVINE, CALIFORNIA, UNITED STATES,
November 25, 2022 /

EINPresswire.com/ -- Breakthroughs

using stem cells from a newborn's umbilical cord blood & tissue continue to advance healthcare & save lives since the first treatment over 20 years ago. Today, cord blood stem cells are used as personalized cell therapy which is FDA-approved to treat more than 80 diseases including cancers, metabolic disorders, immune & blood-related diseases. To celebrate the holiday season, [HealthBanks](#) announces \$0 Enrollment when using the promo code HOLIDAYS at checkout.

To enable families to preserve these life-saving stem cells, HealthBanks offers three types of cord blood banking packages to fit every family's needs:

- Bronze: Cord Blood
- Silver: Cord Blood & Cord Tissue
- Gold: Cord Blood, Cord Tissue, & isolated MSCs (Mesenchymal Stem Cells)

Our team offers four different storage plans so that families can choose how long they would like to cryopreserve their newborn's precious cells. Families can feel at ease knowing all cord blood banking packages are eligible to enroll in any of our storage plans:

- Monthly Storage (3-Year Minimum)
- Annual Storage
- 20 Year Storage
- Lifetime Storage

Newborns are not the only ones who can benefit from the stem cell preservation: siblings have up to 75% chance of being a perfect or partial match while parents have a 50% chance.

HealthBanks remains committed to making cord blood banking accessible & affordable to

families across the world & believes preserving today's cells can be a life-saving choice tomorrow.
