

Doseology Goes National with Whole Foods Market

VERNON, BRITISH COLUMBIA, CANADA,
November 25, 2022 /

EINPresswire.com/ -- Doseology Sciences Inc. (CSE: MOOD) (OTCQB: DOSEF) (FSE: VU7) ("Doseology" or the "Company"), a life sciences company focused on mental health and wellness, is excited to announce that its functional mushroom supplements will soon be available nationally at all 14 top-tier Whole Foods Market Canada locations.

The Company has launched with 3 leading SKUs - the SLEEP, WAKE, and ELEVATE functional mushroom tinctures. Doseology's products can currently be found in Whole Foods Market western retail locations in West Vancouver, North Vancouver, Vancouver, and North Burnaby, and will soon be in all Canadian retail locations.

"Whole Foods has a reputation as an industry leader with the highest standards, which makes them an ideal retail partner for our products. This placement will help us generate brand awareness and increase sales, while delivering health and wellness results for customers," said Ralph Olson, CEO of the Company.

The line is made with 100% fruiting body mushrooms and adaptogenic plants, and is designed for wellness seekers interested in daily support for cognition, mood, immunity and relaxation.

Approximately 30% of Canadians suffer from a sleep disorder (The Sleep Foundation). Sleep affects mental health and physical well-being, and is linked to most mood disorders, including depression and anxiety (Provincial Health Services Authority). To address this issue, Doseology formulated its SLEEP tincture. The proprietary blend of reishi mushroom, chamomile and melatonin is a powerful tool that brings the body and mind into a restful state and improves sleep quality. Reishi mushroom (*Ganoderma lucidum*), also known as the "Mushroom of Immortality", has been used for centuries to relieve stress and anxiety.

Mornings are supercharged with the Doseology WAKE tincture. It is an energising blend of lion's mane mushroom, yerba mate and B vitamins to promote wakefulness and mental clarity. Wake was recently seen in Elle Gourmet's "[Four surprising wellness trends for 2023](#)".

The Doseology ELEVATE tincture features lion's mane, the mushroom known for unlocking cognitive potential, and is formulated with a nutrient-rich dose of ginger and vitamin B3. These mindfully stacked ingredients act synergistically to offer support for overall mood.

Forward-Looking Statements

This press release contains statements that constitute "forward-looking information" within the

meaning of applicable securities laws. Forward-looking information is often identified by the words “may,” “would,” “could,” “should,” “will,” “intend,” “plan,” “anticipate,” “believe,” “estimate,” “expect” or similar expressions. Readers are cautioned that forward-looking information is not based on historical facts but instead reflects the Company’s management’s expectations, estimates or projections concerning the business of the Company’s future results or events based on the opinions, assumptions and estimates of management considered reasonable at the date the statements are made. Although the Company believes that the expectations reflected in such forward-looking information are reasonable, such information involves risks and uncertainties, and undue reliance should not be placed on such information, as unknown or unpredictable factors could have material adverse effects on future results, performance, or achievements. Among the key factors that could cause actual results to differ materially from those projected in the forward-looking information are the following: changes in general economic, business and political conditions, including changes in the financial markets; decreases in the prevailing prices for products in the markets that the Company operates in; adverse changes in applicable laws or adverse changes in the application or enforcement of current laws; regulations and enforcement priorities of governmental authorities; compliance with government regulation and related costs; and other risks described in the Company’s prospectus. Should one or more of these risks or uncertainties materialize, or should assumptions underlying the forward-looking information prove incorrect, actual results may vary materially from those described herein as intended, planned, anticipated, believed, estimated, or expected. Although the Company has attempted to identify important risks, uncertainties and factors which could cause actual results to differ materially, there may be others that cause results not to be as anticipated, estimated or intended. The Company does not intend, and does not assume any obligation, to update this forward-looking information except as otherwise required by applicable law. For more information, investors should review the Company’s filings which are available on SEDAR.

No securities regulatory authority has either approved or disapproved of the contents of this press release. The Company’s securities have not been, nor will they be, registered under the United States Securities Act of 1933, as amended, or any state securities laws, and may not be offered or sold in the United States, or to or for the account or benefit of any person in the United States, absent registration, or an applicable exemption from the registration requirements. This press release shall not constitute an offer to sell or the solicitation of an offer to buy any securities in the United States, or in any other jurisdiction in which such offer, solicitation or sale would be unlawful.

The CSE does not accept responsibility for the adequacy or accuracy of this release.
