

# The 11 Largest Indian Edible Oil Companies - IMARC Group

*The India edible oil market reached a volume of 23.9 Million Tons in 2021. Looking forward, IMARC Group expects the market to reach 26.3 Million Tons by 2027.*

INDIA, November 25, 2022 /EINPresswire.com/ -- Edible oil represents a fatty liquid that is derived from several vegetables and animal tissues. It is rich in polyunsaturated fatty acids, minerals, such as phytosterols, zinc, and selenium, essential fat-soluble vitamins, etc. In line with this, edible oil assists in improving the nutritional value of food items and offers distinct flavor and texture. It is extensively utilized for baking, frying, and other types of cooking in food processing units, households, restaurants, etc. Edible oil is also used in food preparations that do not involve heat, including dips and salad dressings. Presently, India is the largest importer of edible oil across the globe.

The [Indian edible oil market reached a volume of 23.9 Million Tons](#) in 2021. Looking forward, IMARC Group expects the market to reach 26.3 Million Tons by 2027, exhibiting a CAGR of 1.59% during 2022-2027.

What are the major market drivers in the India Edible Oil Market?

The increasing consumer health concerns towards the high prevalence of diabetes, obesity, coronary heart diseases, gastrointestinal disorders, etc., are primarily stimulating the India edible oil market. Additionally, the widespread adoption of processed food items, owing to the changing consumer dietary patterns and their hectic work schedules, is further catalyzing the market growth. Besides this, the escalating demand for edible oil enriched with omega-3, vitamins, and natural antioxidants, improving living standards of individuals, and the growing penetration of international culinary trends are acting as significant growth-inducing factors. Moreover, the introduction of high-quality product variants, such as sesame oil, olive oil, flaxseed

oil, etc., the expanding agriculture sector, and the launch of favorable policies by government bodies for enhancing the production of oilseeds in the country are also augmenting the market growth. Apart from this, they are making continuous efforts to increase domestic availability and reduce import dependency, which is anticipated to fuel the India edible oil market over the forecasted period.
