Bifurcation Lesions Global Market Report 2022 –
Market Size, Trends, And Global Forecast 2022-2026

As per The Business Research Company's "[Bifurcation Lesions Global Market Report 2022](#)", the bifurcation lesions market is predicted to reach a value of \$2.24 billion in 2022 at a compound annual growth rate (CAGR) of 5.59%. The Russia-Ukraine war disrupted the chances of global economic recovery from the COVID-19 pandemic, at least in the short term. The war between these two countries has led to economic sanctions on multiple countries, surge in commodity prices, and supply chain disruptions, effecting many markets across the globe. The bifurcation lesions market is expected to reach \$2.97 billion in 2026 at a CAGR of 7.26%. The increasing geriatric population is expected to drive the growth of the bifurcation lesions market.

Key Trends In The Bifurcation Lesions Market

The advancement in devices used in imaging and procedures is a key trend that is gaining popularity in the bifurcation lesions market. Major companies operating in the market are concentrating their efforts on advancements in existing devices used in imaging and procedures. For instance, Advanced Bifurcation Systems (ABS), a clinical-stage medical device firm with a unique bifurcation stenting solution to standardize the treatment of all bifurcation lesions in coronary angioplasties, has a platform featuring the only modular self-aligning stent technology to evenly structure bifurcations. The ABS platform is a unique single system that reduces the need for repeat procedures and enables effective bifurcation stenting treatment.

[Bifurcation Lesions Market Overview](#)

The bifurcation lesions consist of sales of bifurcation lesions by entities (organizations, sole traders, and partnerships) that refer to a coronary artery constriction that occurs next to or involves the origin of a vital side branch one does not want to lose. It occurs when plaque deposits accumulate, and the artery becomes too small for adequate blood flow to your heart.
