[aircraft pumps market](#) is predicted to reach a value of \$3.28 billion in 2022 at a compound annual growth rate (CAGR) of 6.07%. The Russia-Ukraine war disrupted the chances of global economic recovery from the COVID-19 pandemic, at least in the short term. The war between these two countries has led to economic sanctions on multiple countries, surge in commodity prices, and supply chain disruptions, effecting every market across the globe. The aircraft pumps market is expected to reach \$4.41 billion in 2026 at a CAGR of 7.69%. An increase in air passenger traffic will propel the growth of the aircraft pump market.

[Aircraft Pumps Market Trends](#)

Partnerships and collaboration are key trends in the aircraft pumps market. Companies are entering into a partnership with aircraft pumps manufacturer to expand their market and leverage each other's resources. For instance, in July 2021, McFarlane Aviation, US-based

engineering and manufacturing company specializing in aircraft components, partnered with C J Aviation. Through this partnership, C J Aviation will improve its access to a bigger market and speed up the development and FAA certification of new products for C J's product line with the assistance of McFarlane's technical and manufacturing teams. C J Aviation is a US-based manufacturer and distributor of fuel pumps, smoke pumps, and hydraulic pumps.

Aircraft Pumps Market Overview

The aircraft pump market consists of sales of aircraft pumps by entities (organizations, sole traders, and partnerships) that refer to devices that are used to move a substance from one container to another in the aircraft. Aircraft pumps might move water, air, or gas; in all cases, they do this via displacement. Aircraft pumps include hydraulic pumps, fuel pumps, waste and waste pumps, and other pumps to ensure the proper flow and functioning of aircraft.

Aircraft Pumps Global Market Report 2022 from TBRC covers the following information:

Market Size Data

- Forecast period: Historical and Future
- By region: Asia-Pacific, China, Western Europe, Eastern Europe, North America, USA, South America, Middle East and Africa.
- By countries: Australia, Brazil, China, France, Germany, India, Indonesia, Japan, Russia, South Korea, UK, USA.

Aircraft Pumps Market Segmentation

- By Type: Hydraulic Pumps, Fuel Pumps, Lube And Scavenge Pumps, Water And Wastewater Pumps, Air conditioning And Cooling Pumps
- By Aircraft Type: Fixed Wing, Rotary Wing, Unmanned Aerial Vehicles
- By Technology: Engine Driven, Electric Motor Driven, Ram Air Turbine Driven, Air Driven
- By Pressure: Up to 350 Pounds per Square Inch (PSI) , Between 350 – 1,500 Pounds per Square Inch (PSI), Between 1,500 – 3,000 Pounds per Square Inch (PSI) , Above 3000 Pounds per Square Inch (PSI)
- By End User: OEM, Aftermarket
- By Geography: The global aircraft pumps market is segmented into North America, South America, Asia-Pacific, Eastern Europe, Western Europe, Middle East and Africa. Among these regions, North America holds the largest share in the market.

Major market players such as Eaton Corporation plc, Parker Hannifin Corporation, Woodward, Honeywell International Inc, Crissair, AeroControlex, Zodiac Aerosystems, Donaldson Company

Trends, opportunities, strategies and so much more.

Aircraft Pumps Global Market Report 2022 is one of The Business Research Company's comprehensive reports that provides aircraft pumps global market analysis and in-depth aircraft pumps global market research. The market report analyzes aircraft pumps global market size, aircraft pumps global market growth drivers, aircraft pumps market segments, aircraft pumps market major players, aircraft pumps market growth across geographies, and aircraft pumps market competitors' revenues and market positioning. The aircraft pumps market report enables you to gain insights on opportunities and strategies, as well as identify countries and segments with the highest growth potential.
