Efye

The young rapper has worked tirelessly to imbibe realism and spirituality into

the music that he produces. In this sense, Efye believes that songs that truly gain traction make the audience feel something real and profound. An idea, a thought, or a feeling that snaps them out of the dreariness of their own lives and pushes them to recognize something new. This ability to give the audience what they want, when they want it, is perhaps, the most endearing quality in an artist.

The rising star's recently released singles include "Andale", "Checklist", and "Might Just Drown" each of which is premised on a specific emotion that the singer wishes to relay. The inspiring singer has recently released his 'Cloud 8' mixtape which is all set to create new waves in the music industry.

The rapper's new plans include more festival showcases, a new album release in 2024, more club appearances, and overall more content that the masses can relate to.
