[Tennis Esports](#) is a virtual sports application developed by the Vienna-based startup VR Motion Learning.

You may have tested “Tennis Esports” at the US Open 2022 in Flushing Meadows or seen it on ABC News, ESPN, ESTV or other networks. Tennis Esports provides an interactive tennis experience. It can be played virtually anywhere by anyone. All you need is a Meta Quest 2 headset and off you go.

You may train different exercises with a virtual ball machine, try to hit a high score in an Arcade game, match your friends online or even play against yourself. For the first time, hundreds of tennis players from around the world will meet on Tennis Esports virtual reality courts and compete for \$1000 - \$10,000 in the Tennis Esports Cup 2022. The more players, the bigger the prize pool.

Tennis Esports Cup 2022, a world premiere virtual format:

Play whenever you like, enter when you can. The more you play, the more points you get, and that’s basically it. Matches last around 5-10 mins, and you’ll be able to compete from any city, category, or level. Entry is FREE and does not close.
