EINPresswire.com/ -- Winter is approaching which means changes to the skin.

"Your skin may start feeling tight and itching," said Iva Plummer, one of the co-founders of Vido's Health & Beauty USA. "During the winter months, cold winter air dries out your skin."

Plummer, whose company distributes Hemp-Seed Oil skincare products, suggests the following winter skincare tips from EverydayHealth.com:

- 1) Buy a humidifier to moisturize your skin.
- 2) Lower the thermostat instead of heat, which can make the house even drier.
- 3) Save on the utility bill and lower the water temperatures for showers and baths.
- 4) Moisturize hands frequently, especially after washing.
- 5) Still use sunscreen.
- 6) Eat right and stay hydrated.
