The Business Research Company's "Infrastructure Inspection Global Market Report 2022"

Avail a limited period discount of 33% on our uniquely designed Opportunities and Strategies market research reports. Contact us today and make winning strategies!"

The Business Research Company forecasts the infrastructure inspection market is expected to grow from \$1.81 billion in 2021 to \$1.97 billion in 2022 at a compound annual growth rate (CAGR) of 8.8%. The Russia-Ukraine war disrupted the chances of global economic recovery from the COVID-19 pandemic, at least in the short term. The war between these two countries has led to economic sanctions on multiple countries, surge in commodity prices, and supply chain disruptions, effecting many markets across the globe. The infrastructure inspection market is expected to grow to \$2.77 billion in 2026 at a CAGR of 8.9%.

The surge in capital investments for structural health monitoring to ensure better maintenance of critical

infrastructure is expected to propel the growth of the infrastructure inspection market going forward.

<u>Infrastructure Inspection Market Trends</u>

Technological advancement is a key trend gaining popularity in the infrastructure inspection market. Major companies operating in the infrastructure inspection market are focused on developing new technological solutions to strengthen their position.

Infrastructure Inspection Market Overview

The infrastructure inspection market consists of sales of infrastructure inspection by entities (organizations, sole traders, and partnerships) that are used in analysing and monitoring tools that help to analyse the state of the infrastructure. Infrastructure inspection refers to the technology that involves collecting and assessing meaningful data about the infrastructure. Infrastructure inspections can include bridges, pipelines, power grids, and other facilities that are essential to the use and safety of structures.
