In 2010 Lacy lost her baby brother Rocco aged 1, to Type 1 DKA (Diabetic Ketoacidosis) just 2 weeks after his first birthday due to being misdiagnosed with a virus. Diabetes doesn't run in the Kuehl family, they had heard of it, but they had no idea how serious it was. Losing Lacy's brother was devastating to

her family, and it's now Lacy's mission to ensure that parents and children know the symptoms and what

to look for so that a diagnosis can be made sooner. No parent should have to lose a child from diabetes,
and a child shouldn't have to lose a parent from diabetes.

“

This is a fantastic opportunity offered by Nic Petit and The Mushin Mortician Scott Janssen. I can't wait to see where this takes me. It's all about the dogs and sharing diabetes awareness.”
