

CHIEF RISK OFFICER TOM CURNOCK FIRST IN CAYMAN ISLANDS AWARDED THE DCRO INSTITUTE CERTIFICATE IN RISK GOVERNANCE®

GLOBAL, ORGANIZATION, November 29, 2022 /EINPresswire.com/ -- The DCRO Institute, a global nonprofit focused on bringing risk expertise to the boardroom and c-suite, announced today the award of the prestigious [Certificate in Risk Governance](#)® to Tom Curnock of the Cayman Islands. He is the first person in the Cayman Islands to earn this credential.

Tom is the Chief Risk Officer for Greenlight Re, a NASDAQ-listed company with specialist property and casualty reinsurance companies based in the Cayman Islands and Ireland. In his role, Tom works with the board and senior management of Greenlight Re to develop and oversee the risk management framework for the company. Prior to his time with Greenlight Re, Tom worked in investment banking with Aon Benfield. Before that, his work focused on software development and artificial intelligence. Tom earned his Ph.D. in Computer Sciences and his undergraduate degree in Mathematics from the University of Salford in the United Kingdom. He also studied Financial Mathematics at New York University.

Tom's attainment of the Certificate in Risk Governance® pairs him with Ursuline Foley, [Qualified Risk Director](#)®, who serves on the board of Greenlight Re and earned the Certificate in Risk Governance® in 2021.

"We are very pleased to see this shared achievement by both the chief risk officer and a board member at the same company, as is the case with Tom and Urs," said David R. Koenig, President and Chief Executive Officer of the DCRO Institute. "This kind of accomplishment is exactly why the DCRO was formed and why we launched the programs of the DCRO Institute. Congratulations to Tom on this significant achievement," he continued.

The Certificate in Risk Governance® is awarded to those who have completed The Board
