

Telnyx Brings its Global Reach and Secure, High Quality Voice to the Zoom Phone Provider Exchange

Telnyx's secure, private IP network is now available via BYOC (Bring Your Own Carrier) on the Zoom Phone Provider Exchange.

CHICAGO, IL, UNITED STATES,
November 30, 2022 /

EINPresswire.com/ -- Telnyx, the global connectivity platform that powers real-time communications for leading enterprises, today announced that it has joined the Zoom Phone Provider Exchange from [Zoom Video Communications, Inc.](#)

Zoom Phone BYOC customers will soon be able to select Telnyx as a telephony partner directly in the Zoom portal.

“The addition of Telnyx to the Zoom Phone Provider Exchange illustrates how Telnyx is expanding its offering of BYOC solutions to businesses who need global scale, security and reliability from a single provider,” explains David Casem, co-founder and CEO at Telnyx. “Enterprises today are looking to consolidate their global connectivity and move communications off the public internet onto secure, private networks. Telnyx offers the global coverage, flexible pricing, tools and support businesses need to execute their BYOC strategy.”

By joining the Zoom Phone Provider Exchange, Telnyx is offering Zoom Phone customers more flexibility and global reach”

*Graeme Geddes, Head of
Zoom Phone and Zoom
Rooms*

Zoom Phone is an award-winning cloud phone system that enables customers to use their desk phone, computer, or

mobile phone for reliable phone management. With Zoom Phone BYOC, customers have the flexibility to select their own telephony provider or leverage Zoom Phone calling plans.

To select Telnyx as a provider on the Zoom Phone Provider Exchange, customers simply navigate

to the Provider Exchange menu in their Admin portal and search for Telnyx. Once they click connect, customers can create or authorize their Telnyx account. Once authorized, customers use the Telnyx Mission Control portal to create an external connection to Zoom Phone and provision Telnyx numbers to their Zoom Phone account.

In addition to establishing connections to Zoom Phone, the Telnyx Mission Control Portal offers powerful tools for customers to manage their connectivity, including: port numbers in just a few days using Telnyx's Fast Port feature, the ability to search, provision and connect numbers to Zoom Phone in minutes, and access debugging and quality of services tools for troubleshooting.

"By joining the Zoom Phone Provider Exchange, Telnyx is offering Zoom Phone customers more flexibility and global reach," explains Graeme Geddes, Head of Zoom Phone and Zoom Rooms. "The new Provider Exchange makes it easy for Zoom Phone BYOC customers to choose their favorite provider and by bringing on new providers like Telnyx, we're expanding our customer's global connectivity options to help them scale."
