

Cubilose Market worth \$257.4 million by 2027 at a growth rate of 4.5% - IndustryARC

Rising Awareness About The Health Benefits of Cubilose Gives Rise to the Demand For Cubilose Among Health-Conscious People Fuelling The Market Growth

HYDERABAD, TELANGANA, INDIA,
November 29, 2022 /

EINPresswire.com/ -- IndustryARC, in its

latest report, predicts that [Cubilose](#)

[Market](#) size is estimated to reach

\$257.4 million by 2027, growing at a

CAGR of 4.5% during the forecast

period 2022-2027. Cubilose is a nest

prepared by the salivary secretion of specific swiftlets during their breeding stage and is

considered a valuable traditional Chinese medicine. It's a well-known Asian traditional cuisine

with a variety of nutritional and/or therapeutic benefits, including anti-inflammatory, anti-

influenza, skin regeneration, and bone strengthening. (Edible bird's nest) EBNs or cubilose are

classified as white, yellow, or red depending on their color. White EBN makes up over 90% of the

EBN supply. The creation of Yellow and Red EBN is thought to be the result of the oxidation of

White EBN. Red EBN is the most expensive product on the market. Cubilose is made up of 40-

60% protein, 20-30% carbohydrates, 10-15% water, potassium, and trace amounts of vitamins

and minerals. N-acetylneuraminic acid (NANA), the main type of sialic acids, makes up 9-12

percent of the dry material in the nest.

Key takeaways:

This IndustryARC report on the Cubilose Market highlights the following areas -

1. Geographically, Asia-Pacific (Global Cubilose Market) accounted for the highest revenue share in 2021 and it is poised to dominate the market over the period 2022-2027 owing to the

existence of China which is the largest edible bird nests user country in the world, with a demand of 80 metric tonnes a year, as per the Ministry of Agriculture and Food Industries (MAFI) in the Asia-Pacific region.

2. Cubilose Market growth is being driven by the approved impacts of edible bird nests (EBN) extract including anti-viral action, advancing cell growth and skin whitening, suggested to be based on the functioning of an active constituent, N-acetylneuraminic acid (NANA), However, Edible bird's nests are amidst the most high-priced animal products partaken by humans, with nests being marketed at prices up to around \$3,000 per pound (\$6,600/kg), relying on grading and this is one of the factors hampering the growth of the Cubilose Market.

3. Cubilose Market Detailed Analysis on the Strength, Weakness, and Opportunities of the prominent players operating in the market will be provided in the Cubilose Market report.
