Global Forecast 2022-2026' published by The Business Research Company, the foundation repair service market size is expected to reach a value of nearly \$2.81 billion in 2022 at a compound annual growth rate (CAGR) of 5.7%. The Russia-Ukraine war disrupted the chances of global economic recovery from the COVID-19 pandemic, at least in the short term. The war between these two countries has led to economic sanctions on multiple countries, surge in commodity prices, and supply chain disruptions, effecting many markets across the globe. The foundation repair services market is expected to grow to \$3.52 billion in 2026 at a CAGR of 5.8%. The increasing number of residential and commercial buildings is expected to propel

the growth of the foundation repair service market going forward.

The foundation repair service market consists of sales of foundation repair services by entities (organizations, sole traders, and partnerships) that are used to repair and restructure the foundations of buildings experiencing cracks in concrete slabs and other basement walls. A foundation repair service is a repair that includes installing supports and repairs to the foundation that is damaged.

Global Foundation Repair Service Market Trends

Technological innovation is a key trend gaining popularity in the foundation repair service market. Major companies operating in the foundation repair service market are focused on developing new technological solutions to strengthen their position. For instance, in November 2019, Olshan Foundation Solutions, a US-based company and provider of foundation repair services, introduced a new patented tilt wall repair method. This method reduces the cost and complexity of repairing sunken concrete tilt-wall buildings. This patented and innovative method provides owners of tilt wall structures with an unprecedented level of value and reliability that saves time and money by avoiding the cost and disruption of total replacement and providing a solution that brings the building back to its original construction elevation in a safe manner.

The global foundation repair service market is segmented:

By Repair Type: Settlement Repair, Wall Repair, Chimney Repair, Floor Slab Repair, Other Repair Type

By Applications: Buildings, Roads, Pavements, and Tunnels, Railways, Dams, Other Application

By End User: Residential, Commercial

By Geography: The global foundation repair service market is segmented into North America, South America, Asia-Pacific, Eastern Europe, Western Europe, Middle East and Africa. Among these regions, Asia-Pacific accounts for the largest share.
