

Teba Becomes the First Australian Service Provider to Deliver the Tehama Carrier for Work™

The end-user computing expert will leverage Tehama's revolutionary platform to accelerate its clients' move to the cloud.

OTTAWA, ONTARIO, CANADA,
November 29, 2022 /

EINPresswire.com/ -- [Tehama](#), the world's first [Carrier for Work™](#) platform delivering work over IP to enterprises around the globe, today announced that Teba, an Australia-based End User Compute (EUC) and virtualization specialist, has joined Tehama as an Advantage Partner and as the first service provider to deliver Tehama Carrier for Work™ in Australia.

The way we work has fundamentally changed. Building, securing, and maintaining a hybrid work

infrastructure using traditional approaches requires evaluating multiple vendors, going through procurement cycles for each vendor, integrating selected technologies and defining and creating effective management, governance, audit and risk strategies. All of this is highly complex, expensive, and hard to maintain, let alone scale. The future of the enterprise desktop is in the cloud, which has profound implications for the future of work itself.

In response, organizations around the world are now realizing they need to invest strategically in remote and hybrid workforce capabilities; legacy products and traditional approaches are no longer sustainable.

Tehama's cloud-based, purpose-built, Carrier for Work™ platform addresses multiple business, operational and security concerns while greatly simplifying and accelerating the way hybrid work

is enabled and critically, supported. With Tehama, it's easy to get a distributed team up and running in minutes, no matter where they're located. Tehama's Carrier for Work™ delivers an immediate Zero Trust Network Access transformation, keeping corporate systems and data locked down through [secure virtual rooms and desktops](#). The Tehama Platform features automated, all-inclusive Monitoring, Auditing, Telemetry, Workflow Automation, Activity Streaming, Privileged Access Management and Credential Management capabilities, delivered with full organizational awareness.

"I am proud and excited to welcome Teba as our Carrier for Work™ partner in Australia," said Mick Miralis, Vice President of Worldwide Channels,

Tehama. "Teba's focus on understanding their customer's business and managing their risk, combined with 20+ years as a leader in virtualization, EUC and cloud makes this the perfect partnership." Miralis added, "When you consider the challenges business faces today, which
