#### Segmental Analysis:

1. Spun bonding dominated the nonwoven filter media market in 2021. This technology is extensively implemented in the production of superior nonwoven filter solutions. Spun bonding demand is increasing owing to the rising demand for filtration in various end-use industries such as automotive, personal care, and healthcare.

2. The Asia-Pacific region held the largest share in the nonwoven filter media market in 2021 with a market share of up to 32%. The high demand for nonwoven filters in this region is attributed to their high uses in the booming transportation and healthcare in the region. The production line in the vehicles sector has become one of the busiest production lines in the region.

3. Transportation dominated the nonwoven filter media market in 2021 and is growing at a CAGR of 6.3% in the forecast period. Nonwoven filter media play an important part in vehicles as it helps infiltration of engine air, cabin air, oil, and fuel. The vehicles demand is booming globally with the increase in production units and sales and this growth for automobiles will drive the nonwoven filter media market's growth in the forthcoming years.

#### Competitive Landscape:

The top 5 players in the Nonwoven Filter Media Industry are -

1. Freudenberg Filtration Technologies SE & Co. KG
2. Sandler AG
3. Ahlstrom-Munksjo Oyj
4. Cummins Filtration
5. Dupont
