The Wi-Fi 6 market consists of sales of Wi-Fi 6 by entities (manufacturers, sole traders, and partnerships) that refers to the next generation standard in WiFi technology. WiFi 6 also known as "AX WiFi" or "802.11ax WiFi" builds and improves on the current 802.11ac WiFi standard. WiFi

6 was originally built in response to the growing number of devices in the world. WiFi 6(802.11ax) is designed to improve speed, increase efficiency and reduce congestion in heavy bandwidth usage scenarios

Global Wi-Fi 6 Market Trends

Technological advancements are a key trend gaining popularity in the Wi-Fi 6 market. Major companies operating in the Wi-Fi 6 market are focused on developing new technological solutions flexible across other elements driving the expansion of technology like traffic prioritization, OFDMA, and beamforming. Additionally, more secure, the new protocol makes use of SAE and other cutting-edge encryption techniques. The more recent 6GHz frequency band is available to Wi-Fi 6-capable devices, allowing for better connectivity. For instance, in December 2021, Huawei a China-based multinational technology corporation and manufacturer of telecommunications equipment company launched AirEngine 6760-X1 & 6760-X1E which provides high-quality signal coverage with no blind spots by efficiently increasing signal strength and enabling signals to follow people. Alternately, the AirEngine 6760-X1E can be coupled with several external antennae to adapt to challenging settings including high-rise constructions and limited hallways.
