2022-2026' published by The Business Research Company, the [eDiscovery market size](#) is expected to grow from \$12.09 billion in 2021 to \$13.18 billion in 2022 at a compound annual growth rate (CAGR) of 9.0%. The Russia-Ukraine war disrupted the chances of global economic recovery from the COVID-19 pandemic, at least in the short term. The war between these two countries has led to economic sanctions on multiple countries, surge in commodity prices, and supply chain disruptions, effecting many markets across the globe. The ediscovery market is expected to grow to \$17.86 billion in 2026 at a compound annual growth rate (CAGR) of 7.9%. The increasing amount of electronically stored information is expected to drive the

demand for the eDiscovery market going forward.

The eDiscovery industry consists of sales of e-discovery services by entities (organizations, sole traders, and partnerships) that are services used for obtaining and exchanging electronic data

that is sought, located, secured and searched by organizations in the initial phases of litigation. They are used when involved parties are required to provide relevant records and evidence related to a case. Electronic discovery also referred to as electronic discovery process of obtaining and exchanging evidence in a legal case or investigation.

Global eDiscovery Market Trends

Technological advancement is a key trend gaining popularity in the eDiscovery market. Major market players are focusing on the implementation of advanced technologies that work on cloud-based technology to strengthen their position in the market.
